Acqua Bocata 140g

Turn a good sandwich into an "EXCEPTIONAL SNACK"

Discover our Aqua Bocata: an excellent alveolate bread, light crunchy and durable.

It is baked in a Stone Sole Oven, following the artisan tradition that gives this bread its final texture. Boosting with its great baking force, an extraordinarily alveolate crumb and generating a crunchy rustic crust and an unmistakable flat sole.

You must always offer it hot: tender and crunchy.

Its high hydration allows that you can heat it again at any time of the day, so that you always offer it as freshly made.
