Caramel Hoops 82g

For those who prefer mild flavours, this is the best option.

MILD FLAVOUR. Just by looking at it, you'll want to taste it right away: it's covered (10%) in white chocolate on the top of the Hoops and decorated(4%) with caramelised biscuit pieces all over its surface.

The final touch is the inside, filled (29%) with caramel-flavoured milk cream, offering a sweet and smooth taste that's simply irresistible!

SOFT DOUGH FROM START TO FINISH. Its dough is very spongy and perfectly complements the filling, the coating, and the decoration.

Each piece has five cream injections, ensuring that every bite is packed with all the ingredients.

360° of flavour in everybite!
